

**Technical Data Sheet:** EuricaCoat CW 355

EuricaCoat CW 355 is a high performance emulsion of carnauba wax that offers excellent rub and block resistant properties along with good hydrophobicity. It works well as an additive in premium ink and specialty paper applications.

Property	Specification
Appearance	Opaque tan liquid
Solids Type	Carnauba Wax
Wax melt point	82°C
Emulsifier charge	Anionic
Non-volatile content	30%
pH	7.3 – 8.5
Viscosity	Less than 200 cps
Mean Particle size	Approximately 0.5 microns

Note: EuricaCoat CW 355 displays excellent shear stability and can be transferred or processed without special handling requirements.
